

## Series 40 – Hurricane Pads

### Technical Data:

#### Packaging

5 per box

#### Coverage:

Coverage can vary from surface to surface depending on roughness, porosity and density of the medium being applied. Application technique can also vary the coverage. On flat, dense surfaces, the coverage should generally range from 40,000 to 60,000 square feet per set.

#### Specifications:

##### Grit/Velcro Color:

200 Grit – Yellow

400 Grit – White

800 Grit – Green

1500 Grit - Red

##### Diameters Available:

3” 5” 7” 9” 11” 13” 14”

16” 17” 18” 20” 25” 27”

##### Thickness:

1”

##### Maximum Speed:

3000 RPM

Use **WET** or **DRY**

### Description

**The 40 Series Hurricane Pads** are designed for durability and longevity for a wide variety of applications. They have diamond powder blown throughout the entire pad creating a stronger, wear and tear resistant pad at an economical price. The diamond powders provided extended life due to the ability to use either side creating a stronger, more durable tool for most flooring situations.

### Uses

**The 40 Series Hurricane Pads** are primarily used a burnishing pad for high speed burnishing machines to create the heat needed in the application of most guards or sealers specified in concrete polishing. The versatility and diamond coating in the pad also make it the ideal tool for cleaning and/or maintaining floors of most types including VCT, natural stone, polished concrete, honed and densified concrete, terrazzo (cementitious and epoxy) as well as any sealed surface.

When used in a regular maintenance program the **Hurricane Pad** is extraordinary. The pads may be used **wet** or **dry** and are available in virtually any diameter to meet most maintenance machines including low speed swing machines, high speed burnishing machines, orbital machines, walk behind and ride on auto-scrubbers. The materials hold up well to harsh chemicals including mild acids used to etch floors. The variety of grits available makes it an ideal pad for scrubbing and buffing all types of flooring.

### Application

**The 40 Series Hurricane Pads** are ideal for burnishing, cleaning, refurbishing, buffing and maintaining concrete and terrazzo as well as restoration and maintenance on natural stone floors of all types. The 5” is used by many countertop fabricators to clean, buff and finish many varieties of countertops.
